**SERIOUS INJURY MAY RESULT FROM YOUR PARTICIPATION IN THIS ACTIVITY.**  
**THIS OPERATOR DOES NOT GUARANTEE YOUR SAFETY.**

I understand and agree that: horseback riding is classified as a rugged adventure recreational sport activity and that there are numerous obvious and non-obvious inherent risks always present in such activity despite all safety precautions. No horse is a completely safe horse. Horses are 5 to 15 times larger, 20 to 40 times more powerful, and 3 to 4 times faster than a human. If a rider falls from horse to ground it will generally be a distance of from 3½ to 5½ feet, and the impact may result in injury to the rider. Horseback riding or horse driving is the only sport where on much smaller, weaker, predator animal, the human, tries to control and become one unit of movement with another larger, stronger prey animal, the horse, with each having a limited understanding of the other. If a horse is frightened or provoked it may divert from its training and act according to its natural survival instincts which may include, but not limited to: stopping short, changing direction or speed at will; shifting its weight from side to side, bucking, rearing, kicking or running from danger.
